

# Interactions of low-dimensional topology and “higher” representation theory

Conference held at the Universität Zürich; 17 September 2018 - 21 September 2018

The main goal of the conference is a better understanding of the interplay between low-dimensional topology and (higher) representation theory and of their applications to link homologies and categorification.

## Speakers

**Anna Beliakova**  
(Universität Zürich)

**Michael Ehrig**  
(University of Sydney)

**Hankyung Ko**  
(MPIM Bonn)

**Martina Lanini**  
(Università di Roma Tor Vergata)

**Andrew Lobb**  
(Durham University)

**Marco Mackaay**  
(Universidade do Algarve)

**Volodymyr Mazorchuk**  
(Uppsala University)

**Vanessa Miemietz**  
(University of East Anglia)

**Krzysztof Putyra**  
(Universität Zürich)

**Louis-Hadrien Robert**  
(Université de Genève)

**David Rose**  
(The University of North Carolina at Chapel Hill)

**Anne-Laure Thiel**  
(Universität Stuttgart)

**Pedro Vaz**  
(Université catholique de Louvain)

**Emmanuel Wagner**  
(Université de Bourgogne)

**Paul Wedrich (TBC)**  
(The Australian National University)

**Arik Wilbert**  
(University of Melbourne)

**Xiaoting Zhang**  
(Uppsala University)

**Jieru Zhu (TBC)**  
(University of Oklahoma)
